June 30, 2007

It is my pleasure to recommend Dean Martineau as a general contractor. I met Dean when we worked together on a development project of new construction condominiums and have since used him at my residence to perform a variety of jobs. It has always been my experience that he, and anyone who assists him, is accessible, communicative and the work has always been done to a very high standard in a timely fashion.

In my professional capacity as a real estate agent on the East Side of Providence for 21 years I have had experiences with many contractors and tradespeople and the level of satisfaction expressed by my clients who have used Dean on my recommendation has been consistently high.

I would be pleased to provide a personal reference if requested and can best be reached by cell at (401) 451-7848.

Sincerely,

Ellen F. Kasle
